

I am a longtime subscriber to XM Radio and have just discovered that the NAB is trying to dictate what I listen to, even though I PAY FOR THE PRIVILEGE TO DO SO!!! I enjoy all of XM's various programming, and I like the fact that they provide weather and traffic for the Chicago area where I live. I make frequent trips into the city so this service is appreciated. Again, I PAY for this, so I DO NOT see why the NAB should be permitted to say what XM can and cannot broadcast this is clearly an egregious violation of the XM company's First Amendment rights. Doesn't the government have anything better to do than to tell a legal business that it cannot broadcast a weather report? Ridiculous. I respectfully urge the FCC to vote to reject the NAB's petition 04-160 on the grounds that this is unconstitutional and amounts to a special interest trying to monopolize an industry.
